

Polispot 1.35

Application:

For in-line spot or flood varnishing (coating) in offset applications long run jobs using acrylic (water based) varnishes and short run jobs using U.V. varnishes

We recommend using in conjunction with good quality paper

Advantages:

- Easy to cut and peel
- Easy to clean
- Minimal ink build-up
- Highest dimensional stability
- No "orange peel" effect on the coating
- Reusable for multi long run without registration problems

Thanks to the polyester base

Thickness availability (mm):

- 1.15 – 1.35 – 1.95
