

Polispot Adhesive 1.05

Application:

For in-line spot varnishing (coating) in offset applications

Long run jobs using acrylic (water based) varnishes and short run jobs using U.V. varnishes

We recommend using in conjunction with good quality paper

Advantages:

- Easy to cut
- Easy to clean
- Minimal ink build-up
- Highest dimensional stability
- No "orange peel" effect on the coating
- Reusable for multiple long runs

Thickness availability (mm):

0.85 – 1.05
