

Polisport Aqua 1.15

Application:

For in-line spot or flood varnishing (coating) in offset applications using acrylic (water base) varnishes
We recommend using in conjunction with good quality paper

Advantages:

- Easy to cut and peel
- Minimal ink build-up
- Highest dimensional stability
- No "orange peel" effect on the coating
- Reusable for multi long run without registration problems

Thanks to the polyester base

Thickness availability (mm):

- 1.15 – 1.35 – 1.95
